Adaptive Guidance

Our Mission

Make personalized learning accessible to every student.

Sovi turns everyday study materials, questions, and learning moments into experiences that help students truly understand, practice, and master what they learn.

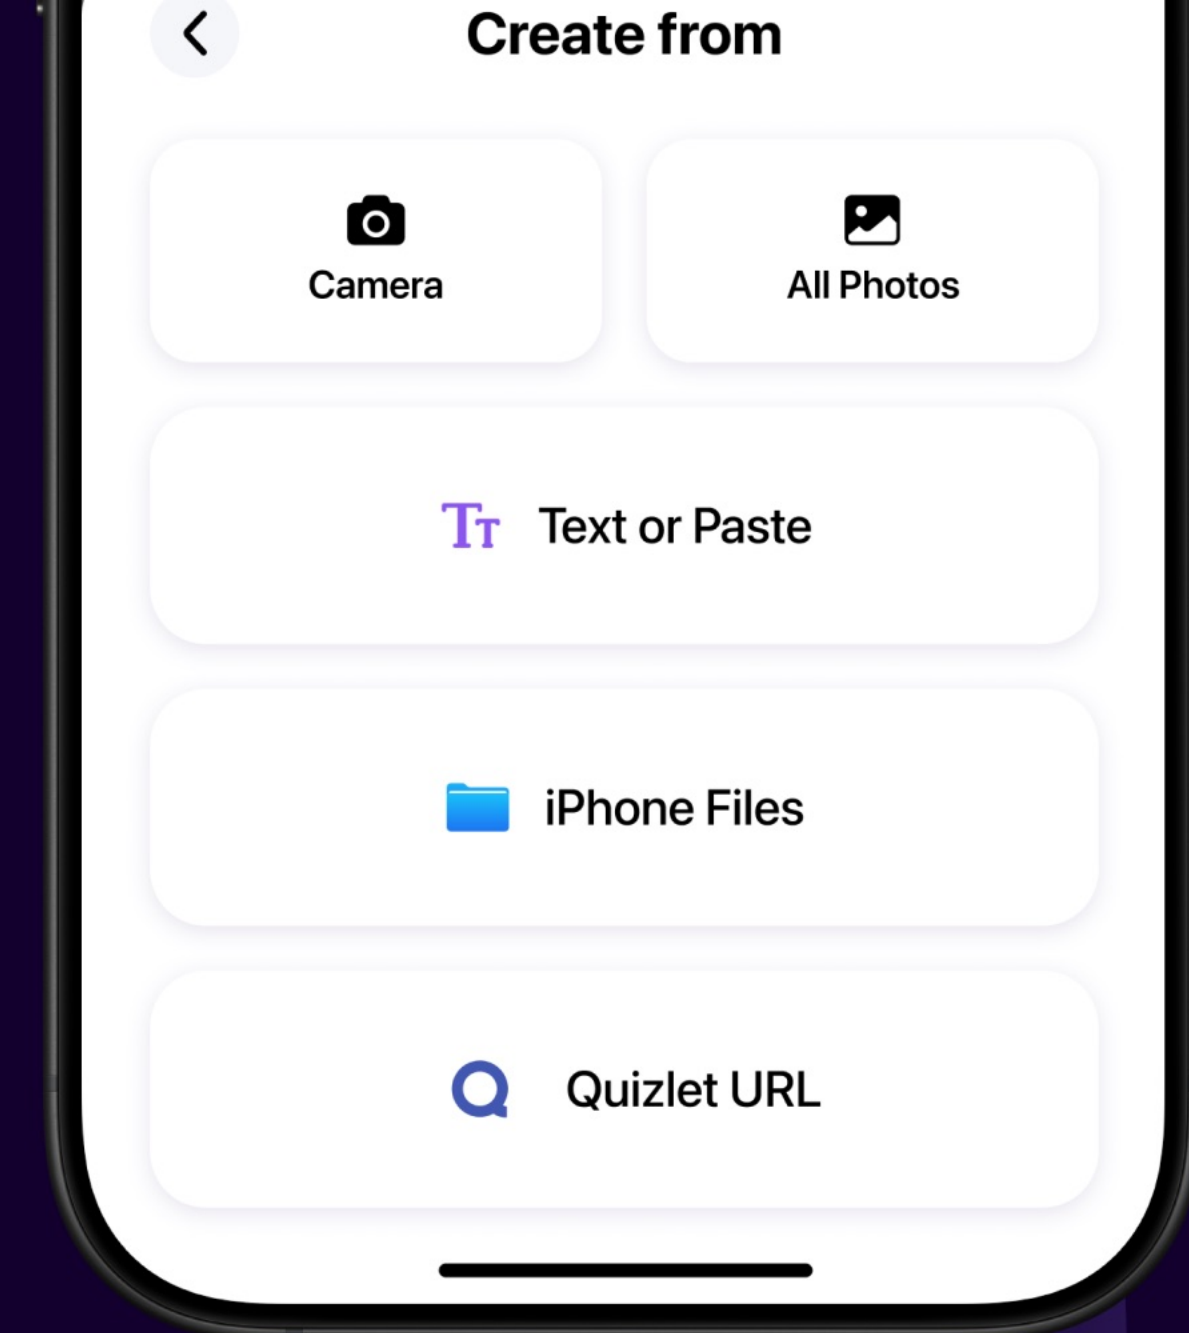

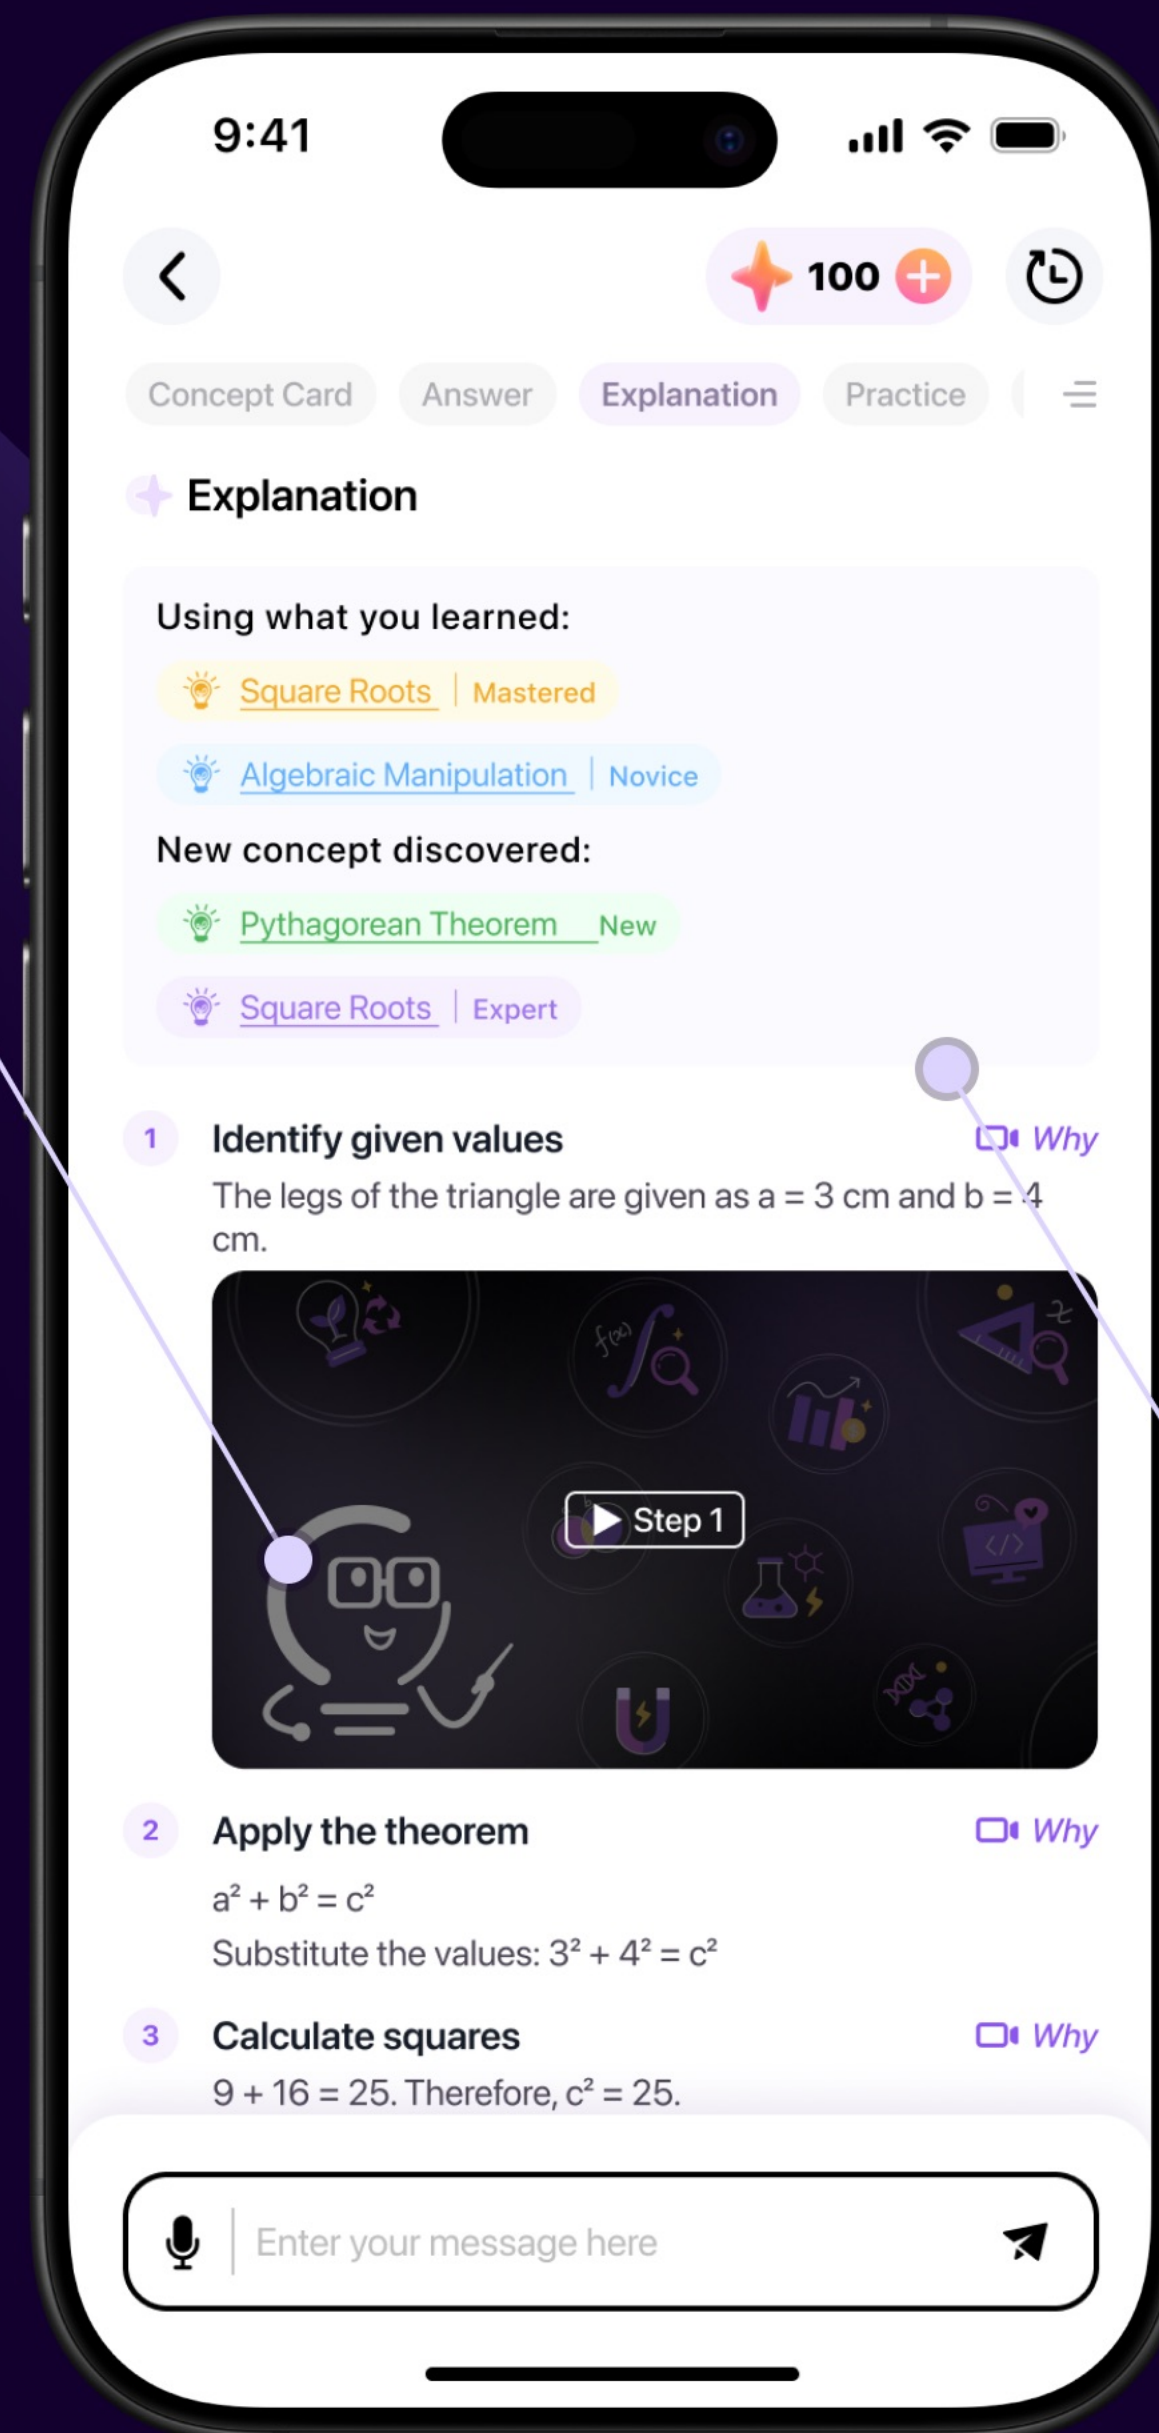

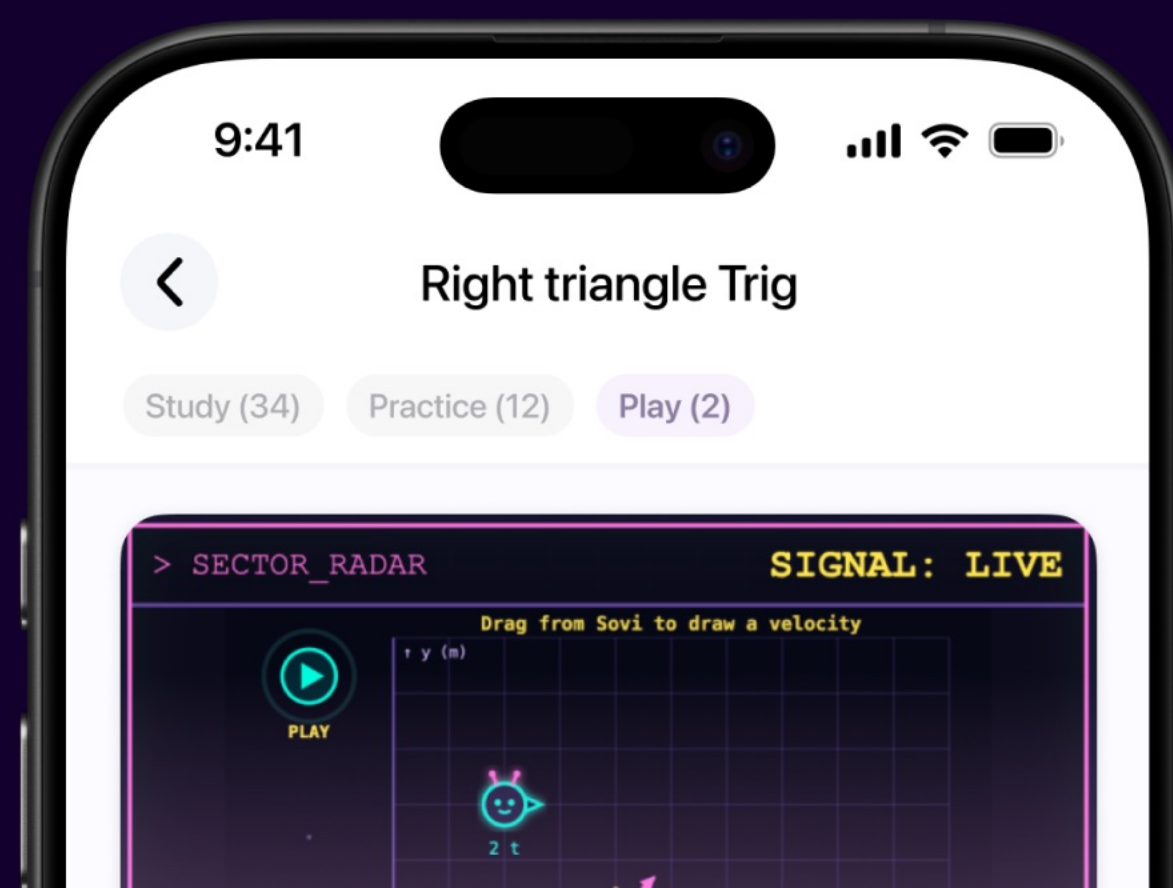

Premium Highlights

Video Explanations

When text isn't enough, Sovi generates visual video explanations on demand. See difficult concepts explained step by step in a way that's easier to understand.

Interactive Mini-Games

Understanding is only the beginning. Students can apply what they've learned through interactive mini-games and real learning scenarios.

Learn from anything

Upload notes, slides, textbooks, readings, worksheets, or other study materials. Sovi understands the material and turns it into a personalized learning plan.

Adaptive Learning

Sovi continuously estimates how well students understand each concept and: Tailors the learning experience to your level.

Sovi on Campus

Bringing personalized AI learning to campuses worldwide.

Sovi is building a growing network with schools and student communities around the world. Our campus initiatives now reach students across:

3,200+ Schools Connected through Sovi's campus network

800+ Schools actively promoting Sovi opportunities to their students
